

Underfloor Heating at Bryn Celynnog Comp School, Beddau

Designed and Installed by Certus Construction 2023

Bryn Celynnog Comprehensive School, located at Beddau, Rhondda Cynon Taf, has received brand new classrooms which are dedicated for sixth form students

The 2,409m² tacker fit Underfloor Heating system was designed by Certus in conjunction with Whiteheads Mechanical Services, and includes 12 manifolds over three floors, with 50 independent thermostatic control zones. The Stainless-Steel manifolds include temperature gauges, drain off valves and pressure gauges.

Certus also provided the Insulation preparation and Screed to the Ground, First and Second Floors, and so provided the complete “Heated Floor Solution” for this new build school project.

Certus Project Value	£95,000
Main Build Contractor	ISG
Mechanical Contractor	Whiteheads
Client	Rhondda Cynon Taf
